

Heavy-Duty Pails

Graduated, Hand Grip on Bottom

Polyethylene pails have wide rims that hold their shape under heavy loads. Features include a heavy-gauge, plastic-coated metal bail and a pronounced spout. There is also a recessed hand grip on the bottom to aid safe handling and pouring. Graduations are in liters and molded on the interior.

F16776-0000	(Autoclavable) Natural Polypropylene (not shown)	23.95

Cleanware™ Glassware Scrubbing Sponge

Scours Glass without Scratching

Tough to remove soils on glassware can be attacked with this sponge that leaves a sparkling undamaged finish. Scouring side resists snagging in corners and crevices and does not leave behind fibers during use. The durable scrubbing material retains aggressive scouring ability even with frequent use. The odor-resistant sponge is highly absorbent and compresses easily to release liquids. A slit around the sponge allows for a very tight grip during heavy scrubbing while maintaining a flat scouring pad for maximum surface coverage. **12 per bag, 6 bags per case.**

Cleanware™ Bottle Brush

Swivel Head for Thorough Cleaning

The pivot head on this brush swivels, enabling you to thoroughly clean bottles and flasks, including difficult curves and corners. The natural bristles set in wood will not scratch glass, and you will find it is an excellent tool for pre-cleaning glassware before placing it in a laboratory glass washer. The uniquely designed swivel head fits through a 29/26 standard taper neck or any neck with a diameter of 24mm (1") or more. The brush has a 45mm (1 3/4") wooden back and a 33cm (13") long hardwood handle. Wood diameter 1.7025 x .8915", bristles 1.578 x .74"
