sidENTRY™ GLOVE BOX†

Portable and Ready for Mounting

Small enough to move wherever it's needed, the sidENTRY™ Glove Box features a large side entry door, 44.5W x 44.5Hcm (17½"W x 17½"H) for placing larger material or equipment into the box. Hand entry into the glove box is

customized to end user needs by selecting either the bellows type glove, economy sleeved glove, seamless sleeved glove or the iris port, all sold separately. Four adjustable levelers ensure glove box stability and leveling for contained equipment. Gas purging of the glove box is possible via the supplied and easily assembled stopcock. Fabricated from 6.35mm (¼") clear acrylic with dimensions 76.2W x 61D x 61H cm (30W x 24D x 24" H). Other sizes or wall thicknesses available on special order.

NEW

Portable Glove Box System

Economical Containment Barrier Unit Ideal for Isolating Material to be Processed.

The operator and the ambient environment are protected with this lightweight, self-contained portable isolation cabinet. A large acrylic window with glove ports permits safe viewing of operations, and the 8" diameter side port allows easy insertion of material and equipment. Included large size neoprene gloves provide good protection against gas, liquid or solid penetration and are secured to the glove box with clamping rings. Body molded from LDPE with round corners throughout for easy cleaning. Overall dimensions 68.5 W x 33D x 55H cm (27W x 13D X 22" H). Shipping weight 38 lbs.
