Molded 100mm Petri Dish Rack

Safely Transports Forty-Two Dishes

This rack is useful for safe transport and incubation of 100mm Petri dishes and helps to streamline benchtop sample processing. Each rack holds up to forty-two Petri dishes with lids, configured in six columns of seven plates. The base area is large enough to be stable but small enough to preserve bench top space. Up to four racks can be stacked together, and all interlock to prevent an accidental knock over. Access slots under the bottom Petri dishes allow a stack of dishes to be safely removed from the rack using a secure grip that places a finger under the bottom dish and thumb on top of the lid of the top dish. A large center divider provides space for labeling and incorporates a handle that does not interfere with the samples. To maintain sterility and ensure long term performance, all parts are molded with white polypropylene and are steam autoclavable at 121°C (250°F). Racks are shipped flat and can be easily assembled. Overall dimensions are 33 x 21 x 17.8 cm H(13 x 8 1/4 x 7" H).

Poxygrid® Petri Dish Dispensing Racks

Petri dishes are easily dispensed one at a time from the bottom of the stack with these epoxy coated steel wire racks. Each holds fourteen 100mm x 20mm (nominal size) plastic Petri dishes per stack, which are loaded at the top and dispensed at the bottom. The rack tilts toward the rear for convenient presentation of dishes. Not suitable for glass Petri dishes.

Remove and Insert Multiple Dishes at Once

Turntable Provides Easy Access

Easyplate™ Petri Dish Racks

Perfect for Use in an Incubator

Increase workspace and efficiently transport large quantities of Petri dishes with the Easyplate™ Petri Dish Rack. Silicone holding strips on the rack's four columns grip each Petri dish and lid to enable the user to easily insert and remove groups of dishes without disturbing upper or lower dishes. Labels are provided on the sides of the rack for critical sample identification. Available in 4 colors and two sizes: the 9" size holds forty-eight 100mm Petri dishes and the 14" size holds eighty-four 100mm Petri dishes. The Easyplate™ Petri Dish rack is manufactured from lightweight, chemically resistant polycarbonate and is autoclavable at 121°C (250°F).

Easyplate™ Turntable

Using the Easyplate™ Turntable the researcher or technician can rotate the Easyplate™ Petri Dish Rack 360° for fast, easy accessibility. The turntable revolves smoothly on ball bearings, allowing the user to quickly remove or replace a Petri dish on any side of the Easyplate™ Petri Dish Rack. The 6-inch post in the center, made of high-density polyethylene, orients and stabilizes the rack. The turntable is white styrene and is easily cleaned with alcohol-based disinfectant.

100mm Petri Dish Rack

Maximize Incubator Space

Use this acrylic rack with polystyrene posts to securely hold up to fifty-four 100mm Petri dishes in organized stacks of 9 dishes. Dishes can be removed with one hand and are easily viewed through the clear base and divider. The divider has a built in finger grip handle for transporting the rack when loaded with Petri dishes. Rubber feet help prevent sliding on the bench top. Racks are shipped flat and can be assembled in minutes. Dimensions: 34 x 20 x 23cm H(13 1/2 x 8 x 9 1/4" H).
