F11661-0000	30ml (1oz)	6 bags	14.95
F11662-0000	60ml (2oz)	6 bags	17.55

Polystop™ Dropper Bottles

Use Dropper While Stopper Remains in Bottle

The Polystop™ Dropper Bottle provides a distinct advantage over other glass dropper bottles. The dropper section easily pulls free for use while the polypropylene stopper remains snugly in the neck of the bottle. This helps to prevent chipping the glass dropper section as it is re-inserted into the bottle. The

clear glass bottle has a ground neck, and the dropper has a soft vinyl bulb. Disassembles for easy cleaning.

CATALOG NO.	CAPACITY	PRICE/EACH
F11604-0030	30ml (1oz)	\$12.00
F11604-0060	50ml (2oz)	12.50
F11604-0125	125ml (4oz)	14.00

Spray Pump Bottles

Just a press of the plunger releases a fine mist spray. Low density polyethylene bottle is available in two sizes. **12 per bag.**

CATALOG NO.	CAPACITY	CASE	PRICE/BAG
F11633-0000	250ml (8oz)	6 Bags	\$38.25
F11634-0000	500ml (16oz)	3 Bags	48.95

Spray Bottles

A Gentle Squeeze Produces a Fine Spray

The low density polyethylene bottle should be filled ¾ full leaving adequate air space to generate the spray. A captive closure snaps shut to protect the opening. The spray bottle can also be used as a dropper bottle by simply removing the tube. **12 per bag, 6 bags per case.**

CATALOG NO.	CAPACITY	PRICE/BAG
F11622-0001	30ml (1oz)	\$24.00
F11622-0002	60ml (2oz)	25.00

Reagent/Acid Pump Dispenser

This dispenser aids in the transfer of acids and reagents and virtually eliminates accidental bottle breakage and spills. Simply squeeze the small plastic bottle. Pressing the pressure release button stops the flow instantly. The pump is easily assembled and installed on 5 pint (80 fl. oz.) acid bottles, 1/2 and 1 gallon jugs, 2.5 and 4 liter bottles, or any similar bottle with GPS No. 38-430 or 38-400 threaded necks. Two adapters provided for short necks. Bottle not included. **Per each, 12 per case.**

F11656-0000	\$24.25

Measure-Matic™ Dispenser

Measure liquids from 5ml to 25ml with this convenient automatic measuring dispenser. A dispensing cup slides onto a delivery tube which is set in a 500ml (16 oz) storage bottle. Squeezing the bottle forces the desired volume of liquid through the tube and into the cup. When pressure is released, excess fluid returns into the bottle for spill free pouring of your measured amount. A hollow stopper serves as a dust cover. The bottle is low-density polyethylene; the cup and closure are polypropylene. **Per each, 6 per case.**
