

## FLASHING BELT 100001

Provides safety for those working in dark or dim light conditions such as rain, fog, snow, smoke or dust. The flashing electro-luminescent center panel is easily visible at 1,000 yards at night under street light illumination, further in total darkness. This panel is flanked by two highly reflective strips. This sturdy yet comfortable belt can be adjusted to fit any size 24" ~ 44" and can be worn for long periods due to its extreme light weight of only 6.25 oz. 2 AA batteries (included) provide a minimum of 50 hours of full power illumination. Comes in 3 colors for identification purposes.

- 100001R (red)
- 100001G (green)
- 100001B (blue)
