PRODUCT DESCRIPTION

- Dispenser components are fully autoclavable.
- Full range adjustability, 100-Division Scale.
- 1% accuracy and 0.1% reproducibility at full scale guaranteed.
- Includes a magnifying indicator for easy-reading accuracy.
- Pyrex® and Teflon® fluorocarbon construction for safe use with all liquids except hydrofluoric solutions.
- Models ending in A and AU include both magnifying indicator and metal indicator.

UNIVERSAL REPIPET DISPENSERS

- Dispense from any screw-cap container with an inner diameter opening greater than 19 mm or any container with a 24/40 or 29/42 standard taper by adding an adapter for a ground-glass joint.
- Supplied with 3-cap and washer sets to fit your container: 28-430, 33-430 & 38-430.
- 45 mm cap & washer set optional. #CV830X1B
- 24" (61 cm) of Teflon tubing to fit your container.

LOW SILHOUETTE REPIPET DISPENSERS

- Ideal for shelf storage, fits easily in the refrigerator.
- Square bottle reduces the risk of damage from tipping.
- A second opening in the Halar®-fluorocarbon cap allows you to add reagent without disturbing the dispenser.
- Supplied with 1000 ml square amberized bottle.

STANDARD REPIPET DISPENSERS

- Perfect all purpose choice for dispensing all reagents except hydrofluoric acids, including concentrated acids, concentrated alkalis, chlorinated hydrocarbons, and organic solvents.
- Supplied with a 950 ml round amberized bottle.

FIXED VOLUME ECONOMY

- Specially designed recirculating system for priming without loss of reagent.
- Choose any of 13 sizes.
- Guaranteed 2% accuracy and 5% reproducibility.
- Each model includes one amberized glass bottle and one plastic container.
- Adaptable for use with any reagent bottle having a 20-400, 22-400, 24-400, 28-400 or 38-400 screw cap.
- 5 interchangeable cap/adaptor sets for container flexibility.
- Support stand provides added stability to 4 oz. (120 ml) bottle.
- Twelve extra inches (30.5 cm) of Teflon intake tubing.

ADJUSTABLE VOLUME ECONOMY

- Economical and durable high density polyethylene and polypropylene dispenser.
- Time saving, semi-automatic reloading feature for repetitive lab tests.
- Most economical dispenser on the market today.
- Excellent choice for aqueous solutions and a wide variety of chemicals. (Not suitable for use with oils, hydrocarbons, iodine, petroleum-based chemicals, oxidizing acids, alicyclics or solvents.)

S81001U	10.0 ml	4.3 ml	2.3:1	\$508.00

PRODUCT DESCRIPTION

- As fast and precise as expensive automatic dilutors.
- Dilutes with a single action; aspirating and diluting with just one cycle.
- Coupled together by a magnifying indicator coupling; diluent plunger and aspirator plunger raise simultaneously.
- 100-Division Scale.
- Low Silhouette model includes a low-profile, 1000 ml square amberized bottle.
- Universal REPIPET dilutor supplied with three cap and washer sets and 24 inches of Teflon® tubing.
- Both models feature magnifying indicators for easy reading accuracy.
- Pyrex® glass and Teflon® construction make REPIPET dilutors safe for use with all reagents except hydrofluoric solutions. Two-opening, Halar® lids may distort when used with organic solvents.
