

## Fire Blanket

*Smothers Small Fires, Quickly!*

The Scienceware® Fire Blanket extinguishes small class "A" light oil and grease fires without the mess of foam or chemical agents. An excellent supplement to existing safety equipment, the Fire Blanket is packaged in an instant access container that can be hung on the wall or stored in any accessible location. The blanket is made of woven fiberglass with a textured surface, and all edges are serged with fireproof Kevlar® thread. The close weave greatly reduces the amount of atmospheric oxygen available to feed the fire. The Fire Blanket may also be wrapped around the head and

body for protection against flames and embers when fleeing a burning room, or for protection from splashing molten metal. Measures: 0.91 x 1 meter (36 x 40"). Shipping weight 0.7 kg. (1 lb. 8oz).

## Safety Step Stool

*Rolls into Place, Stabilizes When You Stand on It*

This handy step stool provides safe, easy access to high shelves, drawers, equipment and other hard-to-reach areas. Spring loaded floating ball casters at four points make it easy to kick or push out of the way or into position. When weight is placed on the stool, a non-skid vinyl bumper rests directly on the floor to

prevent movement. Base diameter is 43 cm (16¾"), height 30 cm (12"). **Per each, 6 per case.**

For secure handling and thermal protection

## The Original Hot Hand® Protector

*Safe, Non-Slip Grip*

Hot Hand® Mitts provide superior protection when handling hot or cold objects. Made of strong silicone rubber which resists tearing, withstands temperatures as high as 260°C (500°F), and remains flexible at temperatures as low as -57°C (-70°F). Thumb and fingers fit into each end pocket. The gripping surfaces have multiple concave tipped studs for non-slip grip, and there is a hole for convenient hanging. Trademarked in the U.S. and worldwide. 10 x 19cm (3¾ x 7½"). **Per each, 24 per case.**

**Good for dry ice and cold objects, too!**

## Clavies® Biohazard Autoclave Gloves

*Unload Your Autoclave Safely*

Soft, pliant, all-cotton terry cloth Clavies® Gloves are superb for handling hot objects out of the autoclave or oven. They are also excellent for use where other heat protection is needed, whether in the lab, school or industry. Heat resistant up to 232°C (450°F), they replace hazardous asbestos gloves. Gauntlets in two lengths provide wrist and forearm protection, and the bright orange color offers high visibility. Machine wash, tumble dry. Note: Gloves are not water proof and cannot be used to handle dry ice. **Per pair, 12 pair per case.**
