

### Odo-Clave® Deodorant Pads

U.S.Pat. No. 4,367,203; Japanese Pat. No. 1,296,487; Canadian Pat. No. 1,164,803  
Neutralize Autoclave Odors with a Choice of Four Fragrances

These pads are impregnated with a heat-released deodorant that doesn't merely mask autoclave odors, but actually neutralizes them with one of four pleasant scents. Protective cover melts in autoclave bag, allowing deodorant to be heat activated. Neat and easy to handle, simply unwrap and place a pad in each bag prior to autoclaving. Odo-Clave® pads are 32mm (1¼") square. Odo-Clave® pads have a three year life span, but will last longer if stored in a sealed container. **10 pads per bag, 10 bags per box, 10 boxes per case.**

CATALOG NO.	FRAGRANCE	PRICE/BOX
H13198-0000	Clove	\$54.00
H13198-0001	Cherry	54.00
H13198-0002	Pine	54.00
H13198-0003	Lemon	54.00

### Odo-Clave® Triple Strength Deodorant Pads

Three Times the Strength at a Fraction of the Cost

These practical and economical clove scented pads release three times the deodorant of the standard pads. Pads are 57mm square (2¼"). **10 pads per bag, 10 bags per box, 10 boxes per case.**

### Twist Ties

The Right Size Tie for Every Bag and Bundle Because You Cut the Length You Need!

These ties are strong, convenient and indispensable for bag closures and bundling hard-to-handle items like rods, wires and tubes. They are superior to strings, wires and rubber bands – just cut to the length you need and twist the ends together. Made of soft, copper tinned, annealed iron wire sealed in extruded virgin vinyl. 457.2 meters (1500 ft.) Should only be used at 121°C for 20 to 30 minutes. **Per roll, 6 rolls per case.**

### Silicone Rubber Loops

Versatile Elastic Closures

These flexible bands solve your bundling, binding and color coding problems in the laboratory. Use these adjustable "rubber bands" in the autoclave or freezer, or for securing columns and burettes to supports. The loops are also useful for controlling flexible tubing, keeping foil covers on canisters and securing dialysis bags or biohazard bags. Each loop has a small tension-control band which slides to make the loop larger or smaller as needed. The loops are 5mm (.2") wide and will stretch up to 100mm (4") in diameter. Remaining flexible at temperatures ranging from -46°C to 121°C (-50°F to 250°F), these loops can fill a variety of needs and are autoclavable. Supplied in red, blue and yellow. **30 per bag, 10 of each color.**

### Tip Do Not Close Bags Too Tightly When Autoclaving

### Biohazard Incinerator Cartons

U.S.Patent Des. 328,375

No Need to Transfer Contents

Safe disposal and incineration of biohazard waste is simple and convenient with the Scienceware® Biohazard Incinerator Carton. The entire carton is designed to be burned along with its contents. The corrugated cardboard receptacle is supplied with a .038mm (.0015") thick High Molecular Weight, High-Density (HMHD) polyethylene biohazard bag. A pair of tabs along the top edge keeps the bag from slipping out of place. The snug-fitting lid has a flap for easily inserting waste material. When the box is filled, the safety cap is pulled into place and the entire unit is ready for incineration. The Incinerator Carton features large, colorful biohazard graphics and instructions in four languages. Packaged flat to save space and shipping costs, the carton can be assembled in seconds. Available in two sizes. **6 per pack.**

CATALOG NO.	MODEL	SIZE	PRICE/PACK
F13205-0001	Floor	30.5 x 30.5 x 68.5cm (12 x 12 x 27")	\$54.30
F13205-0002	Benchtop	19.6 x 19.6 x 25.4cm (8 x 8 x 10")	37.60

For Broken Glass Disposal Cartons, See Page 59

### Clavies® Clips

This simple clip is used to securely close the gathered top of an autoclave bag after filling with waste materials and preparing to place in the autoclave. The stiff plastic design holds the bag neck closed but still allows the bag to release internal pressure that can develop during the autoclave cycle. The clip is easily closed and opened with one hand. After autoclaving, the clip is left on the bag for final disposal. The closed internal dimension of the clip is 7/16" and is suitable for benchtop-sized bags or small Scienceware® autoclave bags ranging in size from 12 x 24" to 19 x 23", bag catalog numbers F13160-0009, F13160-0005, F13185-1224, F13164-1419 and F13164-1923. Use with larger bags is not advised. **100 per bag, 10 bags per case.**
